

Solar Conduct Cable 4 mm²

Product sheet

Halogen free according to EN 60754 1/2-1-2 - Radial water blocking cable - Flame retardant according to UNE-EN 60332-1 and IEC 60332-1 - Conductor category class 5 - Rated voltage U₀/U: 450 / 750 V - Isolation resistance: > 20 MΩ x km - Current carrying capacity: VDE 0281 - Fire behaviour: VDE 0482-332-1-2/IEC 60332-1

Technical Details

Material Insulation PVC (Polyvinyl chloride) UV-resistant

Design & Use The Solar Conduct Cable 4 mm² is suitable in many different solar power fields such as large-scale solar power stations, rooftop solar power stations, and water-surface floating power stations. Stable and good connection performance ensures the long-term safe operation of the photovoltaic system, effectively reducing the failure rate and later operation costs of the photovoltaic system.

Warranty 10 years according to our Guarantee Terms and Conditions.

Carring Capacity 55 A

Flame Retardant Single vertical combustion

Conductor Material Tinned Copper

Colour Yellow Green

Cable Width - Height 4.2 mm

V1 PRODUCT SHEET
